

grow your business sell online

Bonsai Media creates unique online stores that will seriously impress your customers.

Want your website set up so you can add products and take payments without having to know geek-speak? Bonsai Media will do that for you.

Want to be found in Google? Bonsai Media will help with that too.

If you're creative you can even design your own web site and Bonsai Media will simply build it, taking care of all the nerdy stuff.

Your online store can include:

- A blog to keep your customers up to date
- Australia Post shipping calculator to determine the correct postage costs
- A reminder service telling you to restock when you are running low on certain products.

We don't just build online stores:

Web Design & Development | Graphic & Logo Design
Print management | Search Engine Marketing
